

SensAwake

Detects wakefulness

Promptly relieves pressure

Eases the return to sleep

Fisher & Paykel Healthcare's unique pressure relief technology is designed to promote better overall sleep. We all wake many times through the night, often without realising, at which time CPAP discomfort is most likely to occur. As you start to wake, SensAwake will promptly but gently reduce your CPAP pressure to a comfortable level. This will ease your return to sleep and allow treatment to resume.

ThermoSmart

Take your comfort to the next level with the sophisticated ThermoSmart humidification system. ThermoSmart can deliver humidity close to the level occurring naturally in your nose and upper airway. By maintaining this natural balance we can make CPAP a more natural and comfortable¹ experience as well as improve your quality of sleep.² You select the level of humidity you want and ThermoSmart does the rest.

Stylish, Smart + Simplified in one CPAP

Great design enriches your life

Focus on features

Auto

More humidity.
More comfort.

Premo

Responsive
pressure relief.

Novo

More communication.
More results.

We sleep for a third of our lives. During sleep we grow, we repair, memories are made; our bodies and minds are rejuvenated. Just as our work-life, home-life and love-life are important to our wellbeing, our SleepLife is crucial to our health and happiness.

Your F&P ICON+ has been designed from the outside-in to give you a compact, stylish CPAP that blends seamlessly into any bedroom environment.

It's combination of good looks, intelligence and simplicity will help you enjoy a healthy SleepLife.

F&P ICON Lifestyle Features

Menu:	It's easy to navigate with the new improved menu system.
Size:	Small and compact for the night-stand, with a fully integrated humidifier, power supply and a hidden water chamber so you still get the best in humidification and comfort while you are sleeping.
Style:	Designed to look more like a household appliance rather than a medical device with neutral colours to blend into any bedroom environment.
Forward Facing Display:	You now have complete control of the CPAP at the touch of a button without having to sit up in bed to find the controls.

Water Chamber
One-piece chamber. Holds 420 ml of water and is dishwasher safe.

Elbow
Used to connect a ThermoSmart™ or standard Breathing Tube to the device. The Elbow also rotates for a preferred position.

InfoUSB 2 / USB Port
The USB Port houses the InfoUSB 2 to record your sleep data.

Chamber Lid
Must be correctly fitted for optimal pressure delivery and can also be used as a handle to carry the device.

Menu System
Easy to use menu system.

SmartDial™
Intuitive controls allow one-touch navigation of the Menu System, using a Press, Turn, Press principle.
