

## **RESPIRATION THERAPY** The new **TREND**<sup>®</sup> for Therapy and Screening

## **AutoTREND**®

is a self adjusting respiration therapy device (Auto-CPAP) which chooses the therapy pressure as high as necessary and as low as possible. The advantage of **AutoTREND**<sup>®</sup> is the combined measurement of airway resistance, flow limitation and snoring. This ensures a safe differentiation between obstructive and central events. Within a certain pressure range the device selects the optimal pressure.

TREND®

HOFFRICHTER TECHNOLOGY FOR EASY BREATHING

TECHNICAL DATA	<b>AutoTREND</b> <sup>®</sup>
dimensions w / l/ h	230 / 225 / 110 mm (without humidifier)
mass	~ 2,5 kg (without humidifier)
power supply	100 - 240 V / 50 - 60 Hz
operation modes	CPAP, APAP, FLEXLINE (3 steps): step 1: Δρ <sub>max.</sub> ≤ ±1 hPa step 2: Δp <sub>max.</sub> ≤ ±2 hPa step 3: Δp <sub>max.</sub> ≤ ±3 hPa
pressure range	4 18 hPa
pressure variation	< ± 0.1 hPa (at 20/min) according to DIN EN ISO 17510
noise level	< 27 dB(A) (at 10 hPa) according to DIN EN ISO 17510
constant display	pressure value, bargraph, date, time, softstart ramp, alarm-clock-state
measuring channels	
airway resistance	•
flow	•
snoring	•
additional function	
start-stop automatic-control	•
softstart ramp	•
leakage test	•
leakage alarm	•
power failure alarm	•
automatic turbine start after power failure	•
date-, time- and wake-up-function	•
time counters	
stand-by	•
turbine running	•
therapy	•
filter age	•
humidifier	ontional
filter system	optional AquatREND 3-layers
casing	ABS
remote control	optional by personal computer or hand device
analogue control	Optional by TRENDING of the optional computer of the optional
classification	protective class II, type BF according to DIN EN 60601-1
	CE-mark according to the EC-directives 93/42/EWG, concerning medical devices, class MPG IIa
	EN 60601-1 "General provisions for the safety of medical devices"
conformity	EN 60601-1-2 "Supplement: electromagnetic compatibility, requirements and testing"
PATR-ENG, 0107-4	Data subject to technical alteration
