

ResMed

AirFit™ F10

Full face mask

Full face benefits in a compact size

ResMed's AirFit™ F10 full face mask is part of ResMed's AirFit range – the right fit for you. Its lightweight, streamlined design enhances comfort and ease-of-use, while its headgear and frame work in synergy, to deliver the same performance and stability you have grown to trust in a ResMed traditional full face mask.

Superior comfort

AirFit F10's sleek, lightweight design gives patients a clear line of sight so they can read, watch TV or even wear glasses while wearing the mask. In fact, 75% of patients found AirFit F10 to be more comfortable than their current ResMed traditional full face mask.*

Proven performance

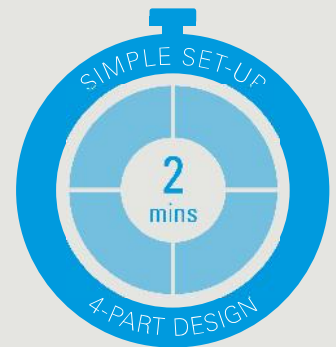

The dual-wall Spring Air™ cushion provides a secure seal for better performance. When asked about AirFit F10's seal and stability, the majority of patients we spoke to, told us that it outperformed their ResMed traditional full face mask.*

Ease-of-use

The mask's four-part design makes it easy for you to demonstrate and for patients to take apart, clean and reassemble. Its intuitive design seamlessly integrates into your patient's bedtime routine.

Quick to fit, easy to use

A recent ResMed study showed that the majority of patients could be set up and fitted with AirFit F10 in under two minutes.* Thanks to its built-in simplicity and four-part design, the mask is also easier for patients to use — helping to reduce call backs and save time. You can be sure AirFit F10 is the right fit for your business.

AirFit F10 features and benefits

SoftEdge™ headgear

is gentle on the skin and features premium rolled-edge fabric for reduced facial marking.

Headgear loops

make it easy for patients to detach and reattach the headgear.

Cushion-to-frame connection

makes attaching the cushion to the robust frame easy.

Circular diffused venting

disperses air gently and quietly away from the bed partner.

Quick-release elbow

with side buttons for fast detachment.

Enhanced Spring frame

is lightweight and designed for stability, while offering unrestricted vision.

Dual wall Spring Air cushion provides a comfortable, high-performance seal.

Soft sleeves

are packed with the mask for even more patient comfort.
